# SUSSEX MUSIC HUB

## Shaping the future of music education across Sussex

Sussex Music Hub is a partnership of organisations, schools and communities across Brighton & Hove, East Sussex and West Sussex, that ensures every child and young person can experience the life-changing benefits of music.

Sussex Music Hub is led by a consortium of Create Music and West Sussex Music, working in partnership with over 50 organisations from across the cultural and creative sectors and more than 550 schools across the region. Together, we support education, wellbeing, and future opportunities delivered through a rich, inclusive and locally responsive music education offer, with schools at the heart of delivery and young people shaping and driving our work and future direction.

Strategic oversight sits with the Sussex Music Hub Board, bringing together expertise from education, the music industry, and the cultural sector to guide development and ensure high-quality accessible provision for all.

Brighton Dome & Brighton Festival is the Hub Lead Organisation (HLO), accountable to Arts Council England for the funding.

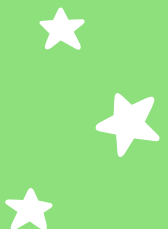

**In our first year, Sussex Music Hub has reached thousands of children and young people across the region. Turn over to see our highlights.**
